CIA INTERNAL USE ONLY

1. (Unclassified - RC) INTELLIGENCE BRIEFING Called Richard Perle, staff member of the Senate Government Operations Permanent Subcommittee on Investigations, to clear up just what kind of briefing he wanted. He said he had sent two requests. One was for a briefing of technology transfer and one for an update on new developments in SALT. I said I would check on the SALT business, but thought that Gus Weiss, of the White House, had taken care of this. He said he had spoken to Weiss and learned that Weiss was going to be out of town for ten days. Accordingly, he needs the briefing on both subjects from us this week. I said I would be back in touch.

5. [REDACTED] AGENCY VISITS Ed Braswell and Clark

McFadden, Senate Armed Services Committee staff, visited Agency Headquarters from about 10:15 a.m. to 2:00 p.m. during which time they saw movies on Mr. Duckett's project; were updated on the status of the Select Committees' investigations; met with the Director to review possible Committee action on legislation, and were briefed by [REDACTED] OSR, on the Soviet surveillance capability of surface naval ships. This appeared to be a very informative session for both of them. A follow-up item is to provide Braswell, for Senator John C. Stennis (D., Miss.), whatever unclassified material we have on world resource shortages. Braswell already has the unclassified paper on food production.
